I am a student game artist and animator based in London. My specialties are in 2D character art, but I have had expierience in creating both character and enviroment works in 2D and 3D - being well versed in software's including Procreate, Photoshop, After Effects, Maya and Zbrush. I am very interested in gaining experience within the creative industry and being able to showcase my skills.

Skills and Experience

Diploma in Professional Studies **(October 2024 - May 2025)**

- Executed technical animations for a live brief with CAF Rail.
- Worked with branding company Venturethree on a live brief from Sky Sports.
- Contributed to a group animation live brief from Blink Industries.

Games Art/ Design Collaboration **(April 2024 - June 2024)**

- In charge of 2D asset production and produced asset art and animation for an in development game, using Procreate and Photoshop.
- Responded effectively to the brief given to me and providing the art on time to my team.
- Communication with a team of other artists, in order to form a coherent theme and art style.

Character Art projects **(January 2023 - Present)**

- Produced multiple projects based on character design and creation during my degree.
- 2D character creation using Procreate and Photoshop
- 3D character creation - modelling, sculpting and texturing with Maya, Zbrush and Substance 3D Painter.
